Dear Santiago,

Thank you for your participation in the MetLife Preferred Dentist Program (PDP).

And welcome to the MetLife SpotLite on Oral HealthSM program in 2025. Congratulations, you've earned special designation as a SpotLite recognized dental provider. This recognition will be active from 03/2025 through 03/2026.

The MetLife SpotLite program recognizes general and pediatric dentists participating in the MetLife PDP who have shown a commitment to improved oral health outcomes. This recognition comes with priority placement in our Find a Dentist application. Putting you and others earning this designation in the "spotlight", near the top of the list for those searching for dentists in your area!

As a token of our appreciation, we have included a window cling to promote this exclusive designation in your office.

The SpotLite program uses a simple approach – leveraging our vast data set, we recognize and reward providers who have shown an increased focus on preventive care. General or pediatric dentists, who see a minimum of 10 MetLife covered claimants each year, are eligible for SpotLite recognition.

The benefits of SpotLite extend beyond priority placement. Dentists who obtain the SpotLite designation two or more consecutive years will also be eligible for a rewards program, that includes improved claims processing speed, reduction in required supporting documentation and a dedicated service team when you need them most.

Thank you for your continued focus on preventive care, for participating in the MetLife Preferred Dentist Program and for helping bring value-based programs to life – the future of dentistry is bright, thanks to dentists like you.

With Appreciation,

Pete Fuentes, DMD
Vice President
Chief Dental Officer

Mike Weyrauch, DMD
Assistant Vice President
Dental Quality & Clinical Oversight

**MetLife SpotLite
on Oral HealthSM**

We want you to be among the first to know that MetLife is one of the first commercial carriers to create and launch a value-based dental provider program, **MetLife SpotLite on Oral HealthSM**.
